

PCDS Committee elections: Call for candidates

“The aim of the Society is to support primary care professionals to deliver high quality, clinically effective care, in order to improve the lives of people living with diabetes.”

Since its creation in 2004, the PCDS has built a large membership of healthcare professionals working in primary care diabetes, run numerous highly successful educational conferences, played a role in the development of various toolkits and other healthcare initiatives, and worked in liaison with other professional groups and in lobbying politicians.

PCDS Committee posts are elected on a 3-yearly basis, with the cycles staggered across the representatives. The Committee is always interested to hear from Society members who are seeking to take a more active role, and one way in which this can be achieved is via membership of the Committee. Elected members generously give their own time. Much of the work is done by email, but there are typically four Committee meetings each year, held on Saturdays in Birmingham with preparatory meetings on the Friday evening.

The PCDS represents all of the UK nations and the Republic of Ireland, and thus accepts applications from members across the British Isles.

This year, the Committee would particularly welcome applicants with backgrounds in nursing, practice nursing, pharmacy or other allied healthcare professionals in the multi-disciplinary team.
