

Request for poster abstracts

Poster abstract submissions are invited for the 19th National Conference of the Primary Care Diabetes Society (PCDS), which will be held on 13 and 14 September.

Posters should provide examples of good practice or innovation in diabetes care within the primary care setting, highlighting work that is of relevance and, ideally, practical significance to other primary care teams. Accepted posters will be displayed in the exhibition hall during the conference and will be judged by the PCDS Committee. An award will be presented for the entry that reflects the best contribution to diabetes care within the primary care setting.

Entries are also open for the **Roger Gadsby Award** recognising an outstanding audit in diabetes primary care, with a cash prize of £500 for the winner. See overleaf for more information about the entry requirements for the award.

Submit your entry electronically
by **17.30 on 19 July 2023**

[Click here to go to the booking page](#) for the 19th National Conference of the PCDS, where you will find an online submission form. Your abstract will be anonymously peer reviewed and you will receive confirmation of acceptance or non-acceptance by mid-August 2023.

Call for audit abstracts

Enter your poster for the Roger Gadsby Award

For your chance to win the £500 prize, enter a poster describing your diabetes primary care audit.

An audit is a proven method of quality improvement, giving practices a systemic way to look at what they **should** be doing, what they **are** doing and how to make improvements to benefit patient care. When deciding what to audit, there are a few things to consider:

- The diabetes-related condition being audited should affect large numbers of people.
- There should be an evidence base for the condition and the interventions being audited.
- At baseline there should ideally be variations in care.
- The audit cycle should include data collection at baseline, the intervention or change in practice, and re-audit after a pre-agreed time to measure change.

Entries must be made electronically by **17.30** on **19 July 2023**.

[Click here to go to the booking page](#) for the 19th National Conference of the PCDS, where you will find an online submission form. Your abstract will be anonymously peer reviewed and you will receive confirmation of acceptance or non-acceptance by mid-August 2023. Abstracts of accepted posters will be published in a special supplement to *Diabetes & Primary Care*.

Entry process and requirements

Entries are invited in the form of a titled abstract of no more than 250 words, which should include the following sections:

- **Aims or objectives:** What is the objective of the audit?
- **Methods:** Criteria, standard(s), target(s) and exception(s) and the time between baseline and re-audit.
- **Results:** The baseline and re-audit results.
- **Conclusion:** What improvements have been achieved?

Please contact the events team on **020 3735 8244** if you have any questions or require further information.

The Roger Gadsby Award

Recognising an outstanding audit in diabetes primary care
