

# Request for poster abstracts

**Poster abstract submissions are invited for the 17<sup>th</sup> National Conference of the Primary Care Diabetes Society (PCDS), which will be staged virtually on 18 and 19 November.**

This year will feature the return of our annual poster exhibition, which will be hosted virtually. Posters should provide examples of good practice or innovation in diabetes care within the primary care setting, highlighting work that is of relevance and, ideally, practical significance to other primary care teams. The PCDS Committee will judge accepted posters during the conference, and an award will be presented for the entry that reflects the best contribution to diabetes care within the primary care setting.

Entries must be made electronically by  
**17.30 on 15 September 2021.**

Visit [www.live.diabetesonthenet.com](http://www.live.diabetesonthenet.com) and click through to the booking page for the **17<sup>th</sup> National Conference of the PCDS**, where you will find an online submission form. Your abstract will be anonymously peer reviewed and you will receive confirmation of acceptance or non-acceptance by mid-October 2021.

Accepted posters will be hosted on the conference's resource centre. Click [here](#) to see last year's posters.

Please contact the events team on  
**020 3735 8244** if you have any questions or require further information.

## Entry process and requirements

Entries are invited in the form of a titled abstract of no more than 250 words, which should include the following sections:

- Aims or objectives
- Methods
- Results
- Conclusions or summary

**2020
