The latest news and views from the Primary Care Diabetes Society

PCDS constitution

The 5th National Conference of the Primary Care Diabetes Society (PCDS) on 20–21 November was a great success. Attended by over 500 delegates, the PCDS hopes that people can return to their practices armed with new knowledge to improve the care of people with diabetes. Posters were displayed at the event, and a judging panel awarded the trophy for best poster to Dr Paul Downie, Partner at Alton Street Surgery, Herefordshire, who donated his

prize of a free place at all PCDS conferences next year, since, as a member of the Committee, he already receives this privilege!

At the annual general meeting of the PCDS the winners of the election are normally announced. However, this year, the election was termed “uncontested” because there were the same number of candidates as positions open on the committee. The committee also revised the PCDS constitution, which is published below.

1. This shall consist of 16 elected members. Each member should serve one 3-year term with the option of further terms depending on election. A minimum of five members of the committee should retire/stand for re-election each year.
2. The quorum for each committee meeting shall not be less than one half of the members of the committee. The committee shall meet no less than twice each year with due notice of at least one month, posted to all committee members.
3. The committee shall elect from its members a Chairperson, Vice-Chairperson, a Secretary and a Treasurer. In order to allow stability, not more than two of the four officers (Chairperson, Treasurer, Vice Chair and Secretary) should normally leave the committee at the same time. The Chairperson and the Treasurer should not stand for re-election or retirement in the same year.
4. The journal *Diabetes & Primary Care* is the official publication of the PCDS. The Editor should be considered as an ex-officio member of the committee and, as such, will be expected to attend and partake in committee meetings.

All the officers of the committee shall normally serve a term of 3 years but may continue for longer pending on election. Service as a specific officer on the committee should not normally exceed two 3-year terms.
5. The committee shall hold an annual general meeting (AGM) each year, when the results of the elections will be announced. Notices for such meetings, accompanied by the agenda and nomination documents, must be sent at least 28 days before the event to the members of the PCDS.
6. Those seeking election to the committee must be of good standing and members of the PCDS. To seek election, they

must be nominated by two other members of the PCDS. This nomination process must be completed at least 10 working days before the AGM.

Voting will be on a one-member-one-vote basis in written form. In the event that there are the same number of candidates as positions open on the committee, the election process will be termed an “uncontested election”.

7. The committee shall have the right to co-opt up to four members. Members who are co-opted should be eligible to continue on the committee for up to 1 year or equivalent AGM. After 1 year, the co-opted members should normally stand in the election process if they are to continue as committee members.

The committee should ideally comprise a cross-section; representing all professions and the four nations of the UK. Co-opting will only be considered for terms ensuring adequate representation, expertise or knowledge if the majority of the committee feel that this is not adequately reflected in the elected members.
8. The members of the committee should, at all times, promote the workings and name of the PCDS foremost and not use their position for “self gain”.

If conflicts of interest arise, this should be declared and discussed with the other members of the committee.
9. The committee will support the workings of the PCDS in regard to the promotion of good, high-quality diabetes care within the primary care environment. This will cover quality education, research and advocacy for PCDS members.
10. Changes to the constitution must be proposed and seconded and included in the agenda of the AGM; such changes shall require two thirds majority of the attending members at an AGM.
